Data & Analytics Product Development with strong communication skills and expertise in:

Python · SQL · PySpark · Airflow · Git/GitLab · Databricks · Data Pipeline · Data Modeling ·
GCP · ETL · dbt · AWS · GenAI · Power BI · Tableau · Looker · Thoughtspot

PROFESSIONAL EXPERIENCE

Analytics Engineer - iFood

Dev.2025- Present

- Develop and enhance data models in dbt by structuring staging, core, and business layers to support scalable analytics solutions.
- Refactored data models, reducing technical debt, computational costs, and processing time across analytical pipelines.
- Translate business requirements into Data Products and analytical models, enabling Self-Service Analytics and reliable metrics for data-driven decision-making.
- Develop dashboards in Tableau and ThoughtSpot to monitor KPIs and deliver actionable insights that support strategic decisions.
- Structure and maintain documentation for data models, dashboards, and pipelines, promoting Data Governance, standardization, and Analytics Engineering best practices.

Data Analyst - iFood

Feb.2024 - Nov.2025

- Developed data products for automating logistical and operational processes, including order generation, tracking, exchanges, and returns. These solutions increased operational speed and reduced execution time by over 50%.
- Built operational dashboards focused on strategic KPIs to identify opportunities for improvement. These tools have helped reduce logistical SLAs and supported stakeholder decision-making.
- Conducted data extraction, integration, and transformation (ETL) from various sources such as APIs, RPA, FTP, and Google Sheets. Also responsible for monitoring data pipeline orchestration using Airflow.
- Implemented Correios API integration and optimized distribution campaigns, boosting efficiency and raising conversion rates from 20% to over 45%.
- Designed data models to estimate logistics costs, forecast supply consumption, and manage inventory, helping anticipate demand and improve partner experience.

EDUCATION

Paulista University of Technology - FIAP

Mar.2024 - Mar.2025

Postgraduate Degree in Data Analytics - Specialization

Federal University of Itajubá - UNIFEI

Feb.2016 - Dec.2023

Bachelor's Degree in Water Resources Engineering

LANGUAGES

- English (Intermediate) - Portuguese (Fluent) - French (Fluent)
